

## Hard Surface Floor covering

### FRANK and Care Purchasing Services

#### Product Information

- FRANK is a luxury vinyl plank and tile floor covering, which is available in **wood plank, marble and stone options**.
- The photographic design accurately replicates the natural materials giving a **residential appearance** that will ease the transition from the home to your facility.
- The planks and tiles are very **easy to remove and replace** if any repairs are necessary due to damage to the floor covering. This is a much simpler process than with sheet flooring products or ceramic tile for example.
- The high performance, **pure vinyl wear layer** with aluminum oxide surface reinforcement is easy to clean and is extremely resistant to abrasion in heavy traffic applications.
- FRANK has a **10 year commercial wear warranty** which is rare in the flooring industry, in which manufacturers frequently only warrant against manufacturing defect and not wear.

#### Maintenance

- With a 100% pure vinyl wear layer, FRANK is **resistant to staining** from most everyday chemicals. Potential staining from bodily fluids, medicine, food and drink spills are significantly reduced thanks to the FRANK high performance wear layer.
- **Wax or no wax maintenance** is optional (please review full maintenance instructions). Regular maintenance is less labor intensive than other flooring options due to the naturally sealed surface of the product.

#### Availability and Installation

- FRANK can work with your current installer or we have the capacity to recommend quality installers as needed.
- **All colors are held in inventory**, resulting in fast delivery times as needed. For very large quantities, it may be necessary to produce material specifically for your project.
- Material will be stored at the FRANK warehouse or the installer's warehouse prior to installation at your facility.
- Budget installed cost - **\$4.50 - \$5.00 per square foot**.
