

We are pleased to announce that Care Purchasing Services has signed a National Contract with Nestlé Waters North America for bottled water, cooler equipment, filtration units, and cups. This *mutual* supplier partnership will enhance service levels to sites, provide dedicated delivery and customer service support and reduce our overall cost.

Nestlé Waters’ representatives will contact you to explain the details of transitioning service. Eligibility of service is determined by Nestlé’s geographic service coverage, and therefore *some* Care Purchasing Services locations *will not be* included in the program if the location is outside Nestlé Waters’ serviceable geography.

It is recommended that existing contracts be reviewed for potential out clauses. Care locations with a bottled water and equipment or filtration related supplier will enjoy instant cost savings by transitioning service.

Nestlé Waters’ quality brands are listed below:

<u>Products</u>	<u>Standard Price</u>	<u>Care Purchasing National Pricing</u>
5 Gallon Purified Water	\$ 7.99	\$ 3.49 per bottle
5 Gallon Spring Water	\$ 8.79	\$ 4.09 per bottle
